

FOR IMMEDIATE RELEASE

## **TECHTRA ANNOUNCE THE AVAILABILITY OF AWARD-WINNING SHAREPOINT ADMINISTRATION PRODUCT**

**Brossard (Québec), October, 19, 2009** – Techtra, leading provider of IT solutions and services and ranked # 1 in Canada on the Microsoft partners’ site for SharePoint technologies, is pleased to announce the signing of an agreement with Axceler and the availability on the Canadian market of Control Point, the award-winning administration product for Microsoft SharePoint.

With the signing of this exclusive agreement with Axceler, Techtra will expand its well established, market-leading position in the SharePoint arena, by offering to SharePoint administrators the ability to explore, protect, analyze and control their environment, while allowing the rapid deployment of governance policies in the organizations. Techtra continue to strengthen its effort in providing clients with the right solutions to organize, optimize, and re-architect SharePoint as their needs change and evolve.

Control Point, the award-winning administration product for Microsoft SharePoint and winner of the Best of Tech-Ed 2009 awards in the Productivity and Collaboration category, is an advanced management tool allowing SharePoint farm administrators to save a considerable amount of time in managing their environment, while enabling them to easily apply business rules corresponding to specific corporate needs.

Control Point will be available in French and will be supported directly by Techtra, for all the francophone countries.

The popularity and the advanced features of the Microsoft SharePoint platform is significantly helping companies and organizations to increase their operational profits, but equally demands additional efforts in configuration and administration. “Our agreement with Axceler, allows organizations to dramatically decrease the costs of operation and to strengthen their governance” says Mr. André Larose, CEO and President of Techtra.

**About Axceler**

Since 1994, Axceler has improved the effectiveness of enterprise collaboration platforms such as Microsoft SharePoint Server. Based in Woburn, MA, Los Angeles, CA, and London, UK, Axceler can be found at [www.axceler.com](http://www.axceler.com).
